

Review Notes — Acme Corp

Jordan Carter opened the quarterly review with a short summary of the onboarding pipeline and the schedule for the coming month. The team agreed that the certificate templates from Acme Corp needed a fresh round of proofreading before the next distribution date, and Riley Morgan volunteered to coordinate the markup pass this week.

Carried-Over Agenda

The second sheet collects the agenda items carried over from the previous session. Each **milestone** below is annotated during review so the next owner can pick the work up without a separate handoff meeting. Acme Corp's renewal paperwork remains the largest single item on the list and is tracked separately by Jordan Carter.
